  <h1>about me</h1>

  <p>Hi, I'm Farheen parween, diploma in IT student in Manuu, I'm delighted to interduce my self to you.I am 19 years old,and I currently reside in Hyderabad, India.

  <br>I am a possionet software Engineer and I find joy in creating innovative solutions for complex problems. Whether it's coding, building software applications, or exploring new technologies, these activities light up my self and keep my inspired.

  <br>My education background is in Information Technology,and i have been fortunate to gai experience in virous software development through my journey. I education, and continuous learning.

  <br>In my free time, I love to travel immerse myself in different cultures. I also enjoy playing the Ludo and spending quality time with my family and friends. They background is in IT and I have been fortunate with Jay's experience in developing virous software throughout my journey, I have learned the importance of collaboration and dedication and mean the world to me, and their support family and friends shaped who I am today.

  <br> I am excited to be parts of this community and to learn form each of you. thank you for giving me the apporunity to interduce myself.

  </P>
